

RG-ES108GD

8-Port 10/100/1000 Mbps Unmanaged Non-PoE Switch

Highlights

- 8-Port 10/100Mbps desktop unmanaged non-PoE switch
- Unmanaged switch, which is visible on Ruijie Cloud APP
- Large buffer for smooth data transmission
- High network reliability
- High-quality design
- Adaptation to various scenarios

Highlight Features

Unmanaged Switch, Which Is Visible on Ruijie Cloud*

* If an unmanaged switch needs to be visualized on Ruijie Cloud, at least one managed switch needs to be deployed on the same network

High-quality Makes Network Reliable

Stable without frequent reboot

Highlight Features

Better Quality Design

Strict standards in PCB design and component selection

Designed for Various Scenarios

Product Information

Model	RG-ES108GD
Product Category	Layer 2

Hardware Specifications

Model	RG-ES108GD
Product Information	
Warranty	3 years
Port Specifications	
Total number of RJ45 ports	8
Number of 10/100/1000BASE-T ports	8
Power Supply and Consumption	
Power input	DC adapter: <ul style="list-style-type: none">• Rated input voltage: 100 V AC to 240 V AC, 50 Hz to 60 Hz• Maximum input voltage: 90 V AC to 264 V AC, 47 Hz to 63 Hz Output: <ul style="list-style-type: none">• Rated input current: 0.3 A• Rated output voltage: 5 V DC• Maximum output current: 1 A
Maximum power consumption	5 W
Power supply	DC power adapter
System Specifications	
Flash memory	1 MB
Forwarding rate	11.90 Mpps
Switching capacity	16 Gbps(bit/s)
Dimensions and Weight	
Casing	Metal
Product dimensions (W x D x H)	160 mm x 75 mm x 24 mm (6.3 in. x 2.95 in. x 0.94 in.)

Hardware Specifications

Model	RG-ES108GD
Weight	350 g (0.77 lbs) (without packaging materials)
Shipping weight	0.60 kg (1.32 lbs)
Environment and Reliability	
Fan	Fanless design
Cooling	Natural cooling
Acoustic noise	No
Mounting options	Wall/Desk
Hot swapping of cables	Hot swapping supported by the service port and power connector
MTBF	200,000 hours
Operating temperature	0°C to 40°C (32°F to 104°F)
Storage temperature	-40°C to +70°C (-40°F to +158°F)
Operating humidity	10% RH to 90% RH (non-condensing)
Storage humidity	5% RH to 95% RH (non-condensing)
Altitude	Operating altitude: -500 m to +5,000 m (-1,640.42 ft. to +16,404.20 ft.) Storage altitude: -500 m to +5,000 m (-1,640.42 ft. to +16,404.20 ft.)
ESD protection	Air discharge: 8 kV Contact discharge: 6 kV
Surge protection	Service port: ±4 kV for common mode Power connector: ±2 kV for common mode and ±1 kV for differential mode
Certification and Regulatory Compliance	
EMC	EN 55032 EN 61000-3-2 EN 61000-3-3 EN 55035 EN 300 386
Safety compliance	EN 62638-1
Certification	CE

the 1990s, the number of people in the world who are illiterate has increased from 1.2 billion to 1.5 billion (UNESCO 2003).

There are many reasons for the increase in illiteracy. One of the reasons is that the population of the world is increasing rapidly. Another reason is that the quality of education is declining in many countries. This is due to a number of factors, including a lack of investment in education, a shortage of teachers, and a focus on rote learning.

Illiteracy is a major barrier to economic and social development. It prevents people from accessing basic services such as health care and education. It also limits their ability to participate in the economy and to improve their living standards.

There are many ways to reduce illiteracy. One of the most effective ways is to invest in education. This includes building schools, training teachers, and providing textbooks. It also includes providing access to basic services such as health care and electricity.

Another way to reduce illiteracy is to provide adult literacy programs. These programs teach basic reading and writing skills to people who are unable to read or write. They are often run by community organizations and are very effective.

Finally, it is important to create an environment that values education. This includes providing incentives for people to attend school and to learn. It also includes providing support for teachers and for parents.

Reducing illiteracy is a challenge, but it is one that must be met if we are to achieve the goal of universal education. It is a goal that is essential for the development of a better world.

There are many ways to reduce illiteracy. One of the most effective ways is to invest in education. This includes building schools, training teachers, and providing textbooks. It also includes providing access to basic services such as health care and electricity.
